Dear Stevan,

We are very grateful to your team and to you personally for the best cooperation in all matters throughout the process in the management of advert live.

We highly appreciated the proper understanding, personal approach and punctuality. All the above and much more prove your valid professionalism.

Due to your support in creating promotional videos and broadcast them using the latest technology, more people in GCC will learn about the wonderful country Azerbaijan, in such a way will increase tourist exchange between the countries and the development of new tourist destination for the Gulf.

We are looking forward to our further cooperation and a lot of new successful projects!

Yours sincerely,
